

Are you an expert in water and wastewater operations with experience leading teams to success? Are you a hands-on leader who enjoys the rewards and challenges of O&M contract management? Do you thrive in positions that require both technical knowledge and communication skills? If this sounds like you, we would like to talk to you about our Project Manager opening in Perry, GA.

As the Project Manager for ESG Operations, an Inframark Company, team in Perry, you will lead a multi-disciplinary team providing operations and maintenance for municipal water and wastewater treatment and infrastructure at multiple sites in the community. We are looking for you to bring your expertise in operational process control procedures and maintenance to serve as the point of contact for our client and the local community. You would be responsible for working with our corporate resources team and project team to successfully achieve operations and compliance goals. You would inspect facilities, evaluate O&M functions, review records and data, interview and select new personnel, and initiate and recommend new or improved methods or practices. You would also manage processes and ensure the continuation of operations during plant upgrades and improvements. We will ask you to maintain accurate operational records and prepare reports required by our client and all regulatory agencies.

Together we will drive your career to the next level through teamwork and next-level service.

Qualifications:

- A bachelor's degree in engineering, biology, chemistry, environmental studies, or a related science, Professional Engineer license is helpful
- Ten years of dynamically responsible experience in Water and Wastewater Treatment Operations management
- Highest level Water and Wastewater Treatment Plant Operator license in Georgia, or ability to receive through reciprocity
- Possess exemplary leadership, communication, and team-building skills.
- Confirmed experience in making sound financial, technical, and management decisions.
- Detail-oriented work style and strong organizational skills.
- Valid driver's license.
